California Gold: Discovering the Beauty of Wines from Sonoma

Winemaking in Sonoma goes back to 1812 when Russian settlers planted grapes on the Sonoma Coast. Between the phylloxera blight in the 1870s that destroyed wine grapes and Prohibition from 1920 to 1933, commercial winemaking suffered a severe setback in those early years. Since then, winemaking in Sonoma (and in all of California) has rebounded, becoming a thriving industry that produces wines of utmost quality and integrity, and garnering much respect.

Influenced by its proximity to the Pacific Ocean and the Russian River, Sonoma benefits from the fog that helps to maintain the area's moderate temperatures, enabling grapes to more than thrive. The region's typical climate is comprised of rainy winters and sometimes hot but mostly comfortably warm summer days and cool nights — all a boon to grape growing.

Today, Sonoma County has more than 50 wine grape varieties. Popular whites include Chardonnay, Sauvignon Blanc (also referred to as Fume Blanc),

Viognier, Pinot Blanc and Pinot Gris.

Notable Chardonnay appellations, chiefly the Russian River Valley, Sonoma Coast and Sonoma-Carneros, offer oak- and vanilla-laced wines with lush, tropical flavors. Sauvignon Blanc, floral and grassy with citrus notes, does extremely well in Dry Creek Valley and Russian River Valley.

Landmark red varieties include Cabernet Sauvignon, Merlot, Pinot Noir, Syrah, Petite Syrah and Zinfandel. Modern fingerprinting analyses support the theory that Cabernet is a hybrid of Sauvignon Blanc and Cabernet Franc, varieties of Bordeaux origin. Excellent Cabs come from Alexander Valley and Sonoma Valley.

Bennet Valley's volcanic and clay soils, and moderately cool temperatures are ideal growing conditions for Merlot, resulting in highly concentrated fruit flavors with balanced acidity.

Pinot Noir grapes grown in Carneros and the Russian River Valley are deliciously fruity and silky-textured wines, emphasizing quite

different characteristics than their earthier and less fruity Burgundian cousins.

Said to be a clone of Italy's Primitivo and identical to the Croatian grape Crljenak Kastelanski, as a result of DNA testing, the first Zinfandel vines are thought to have been brought to Sonoma from Austria. With jammy fruit flavors and high alcohol percentages thanks to the high sugar content, many Sonoma Zins come from the Dry Creek Valley.

While residing in the shadow of Napa's powerful wines

and notable reputation, Sonoma, too, is a force to be reckoned with and offers an entirely different wine tasting experience — smaller wineries spread out, instead of dotted along Napa's Highway 29 — and would be an ideal vacation destination and wine-tasting education. Refined, yet lush, they are, indeed, California gold. Enjoy! ♦

Lobby Day 2010: A Successful Day in Albany

Liquor store owners, wholesalers, distributors and wineries from around the state rallied at the Capitol on February 24th to urge the Legislature to reject Governor Paterson's plan to legalize the sale of wine in grocery stores, convenience markets and gas stations throughout the state. It was an overwhelming turnout, with an impressive number showing up to voice their opposition. The group assembled to reinforce that we oppose this job-killing proposal and that Legislators should once again reject this disastrous plan that would force 1,000 liquor stores to close and make it easier for minors to purchase alcohol. Legislators were more than receptive and feedback was positive, overall.

It is said the Governor's proposal will generate a total of \$300 million in franchise fees over the next two years, but we argue that the numbers are skewed and do not represent the actual anticipated revenue, nor do they address the economic impacts of store closures and the loss of jobs and tax revenue that will undoubtedly result. We will continue to work to keep this out of the budget.

Please visit The Last Store on Main Street website at www.lastmainstreetstore.com and sign your name to letters to the Governor and the Legislature to help local wine stores to survive as well as controlling accessibility of alcohol to minors. With your support, we can be successful in our endeavor to keep local wine stores in business and help your community to thrive.
